## Web Appendix A

In this Appendix we present additional results from simulation studies presented in Section 4, where we consider five repeated measures.

### Unit gamma mixed model with fixed precision

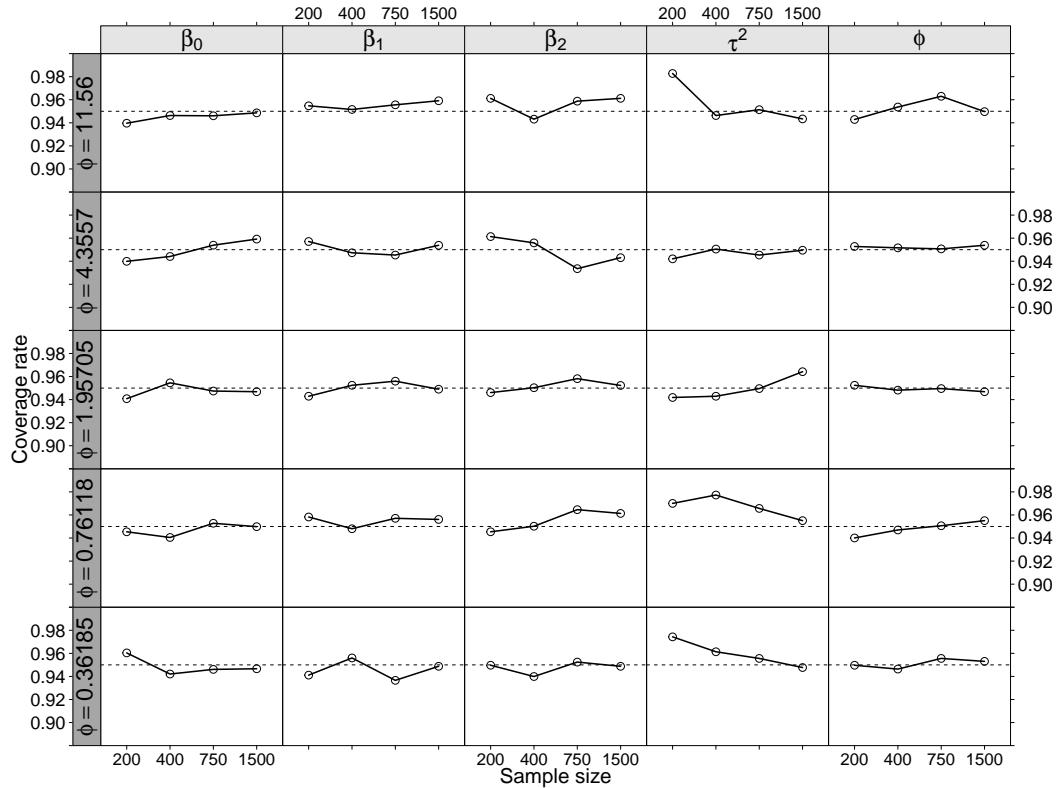

Figure 1: Coverage rate for each parameter by sample size and simulation scenarios with  $\tau^2$  fixed at 0.25 - Simulation study 1.

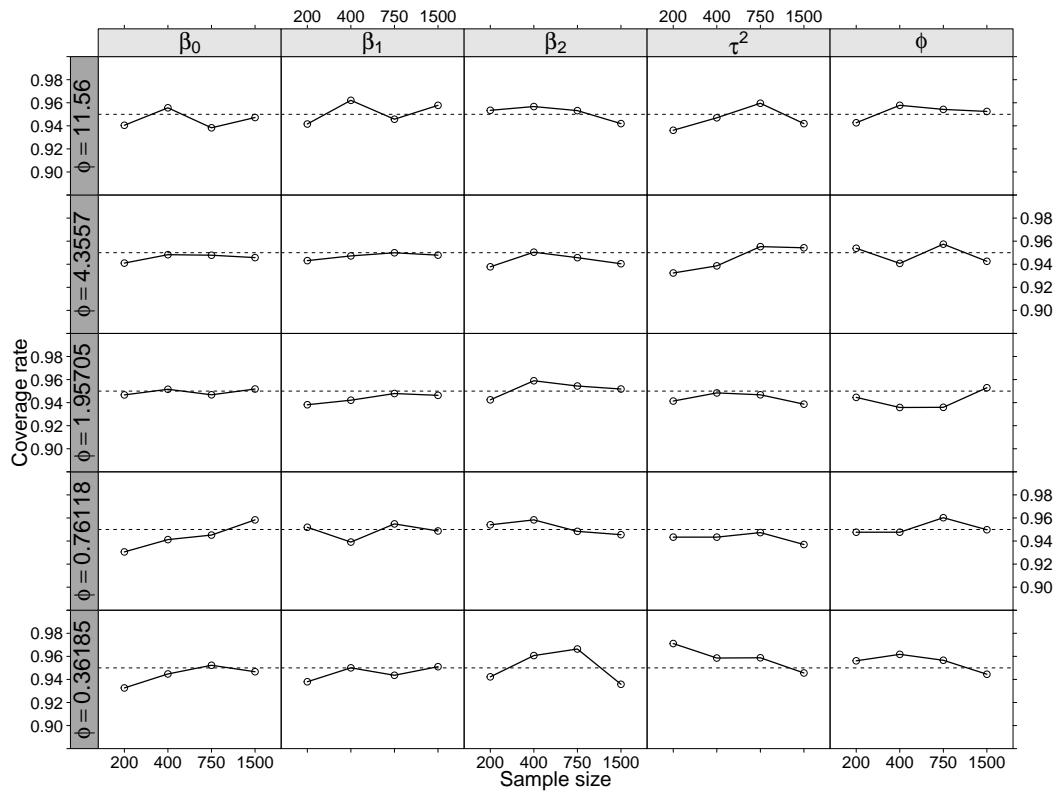

Figure 2: Coverage rate for each parameter by sample size and simulation scenarios with  $\tau^2$  fixed at 0.75 - Simulation study 1.

## Unit gamma mixed model with random slope

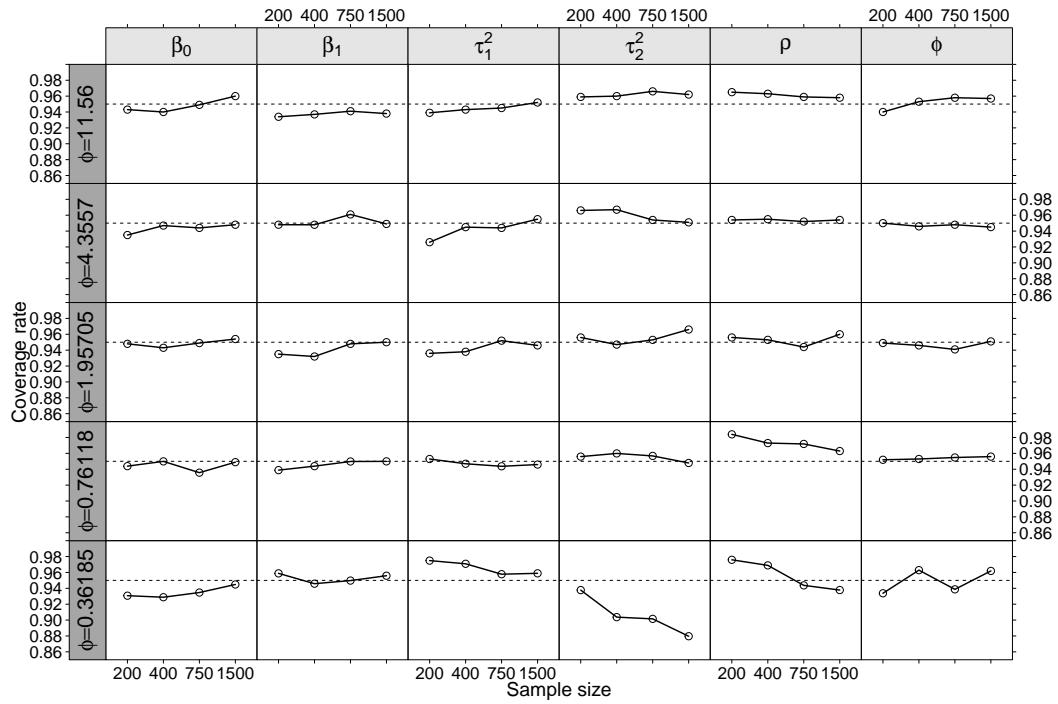

Figure 3: Coverage rate for each parameter by sample size and simulation scenarios with  $\rho$  fixed at 0.3 - Simulation study 2.

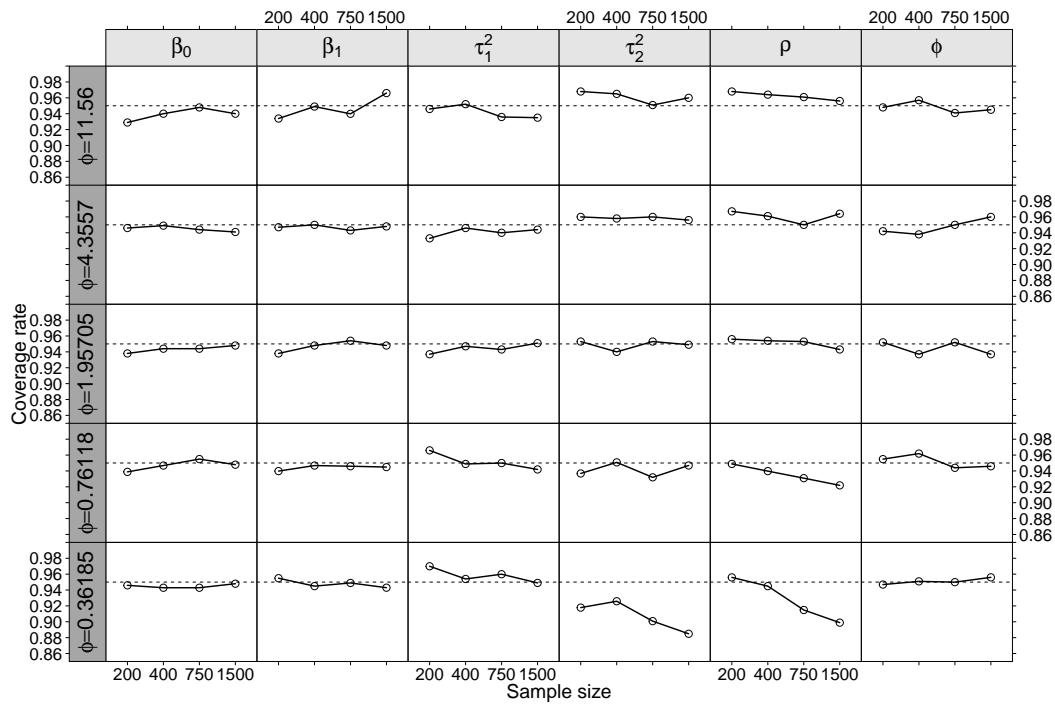

Figure 4: Coverage rate for each parameter by sample size and simulation scenarios with  $\rho$  fixed at 0.7 - Simulation study 2.

## Web Appendix B

Here, we repeat the simulation study presented in Section 4, considering 15 repeated measures.

### Unit gamma mixed model with fixed precision

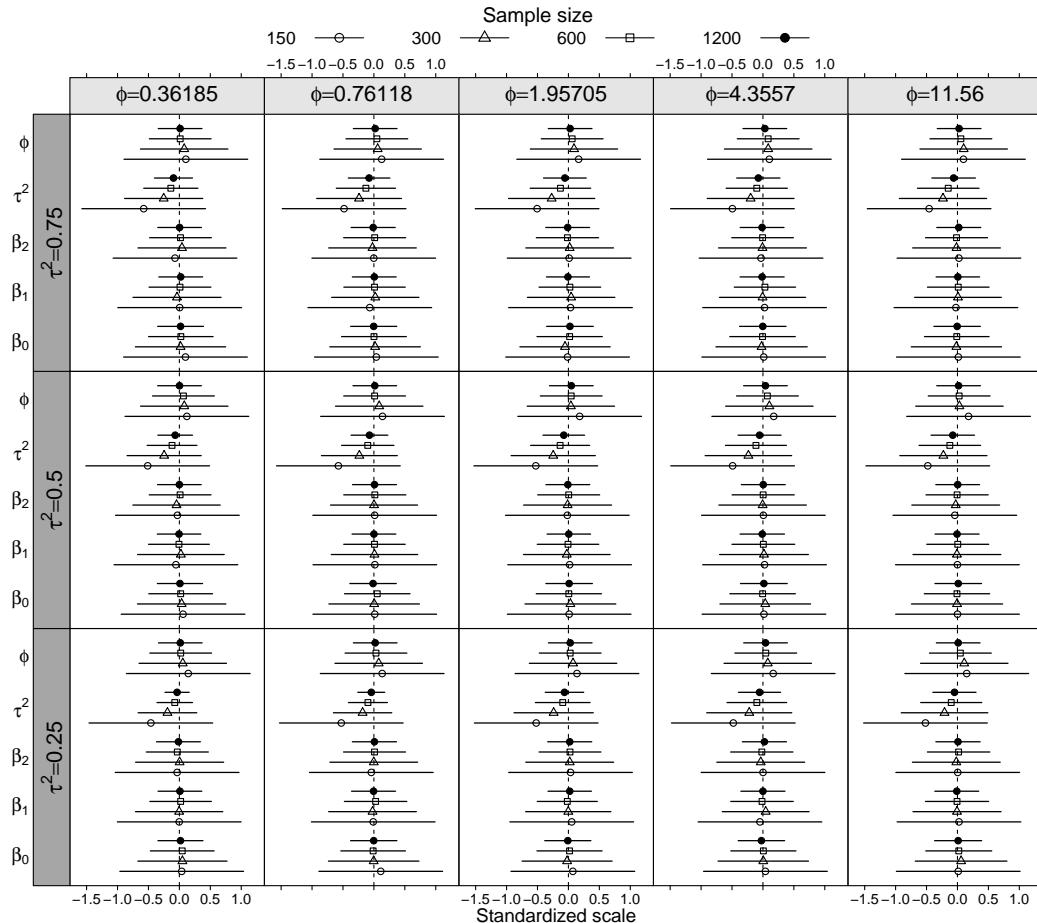

Figure 5: Average bias and confidence intervals on a standardized scale by sample size and simulation scenarios - Simulation study 1.

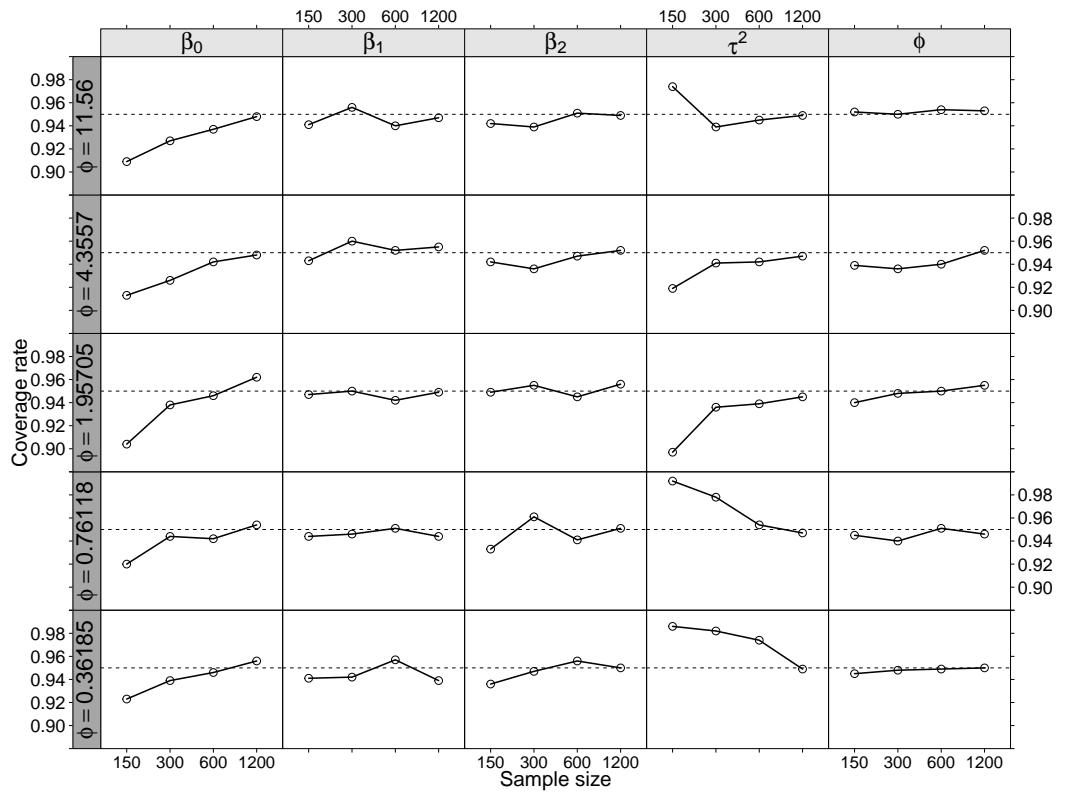

Figure 6: Coverage rate for each parameter by sample size and simulation scenarios with  $\tau^2$  fixed at 0.25 - Simulation study 1.

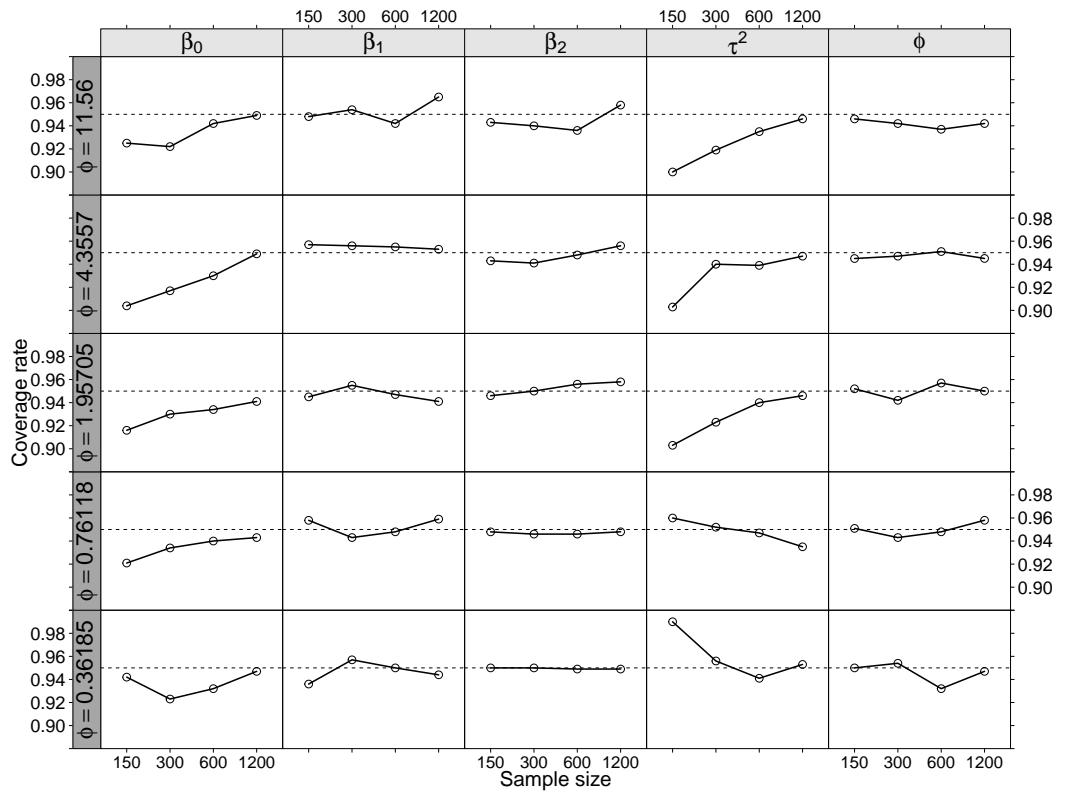

Figure 7: Coverage rate for each parameter by sample size and simulation scenarios with  $\tau^2$  fixed at 0.5 - Simulation study 1.

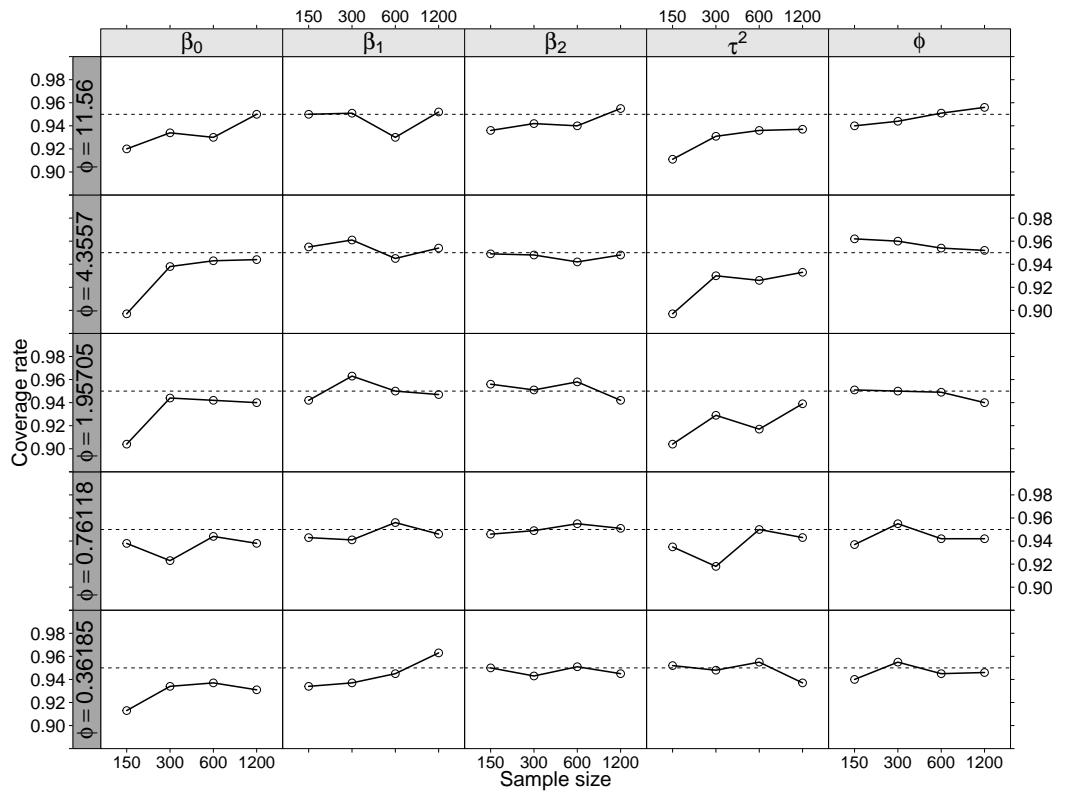

Figure 8: Coverage rate for each parameter by sample size and simulation scenarios with  $\tau^2$  fixed at 0.75 - Simulation study 1.

## Unit gamma mixed model with random slope

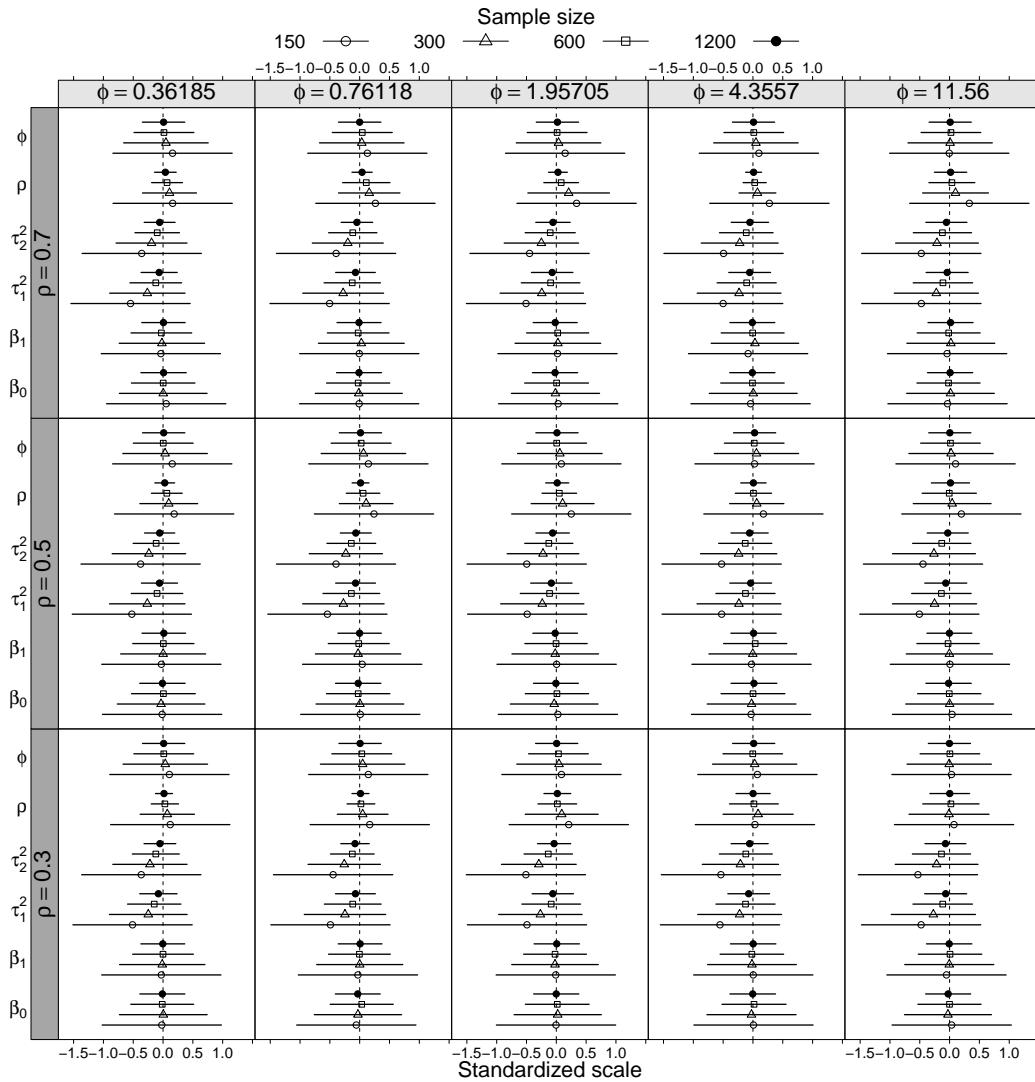

Figure 9: Average bias and confidence intervals by sample size and simulation scenarios - Simulation study 2.

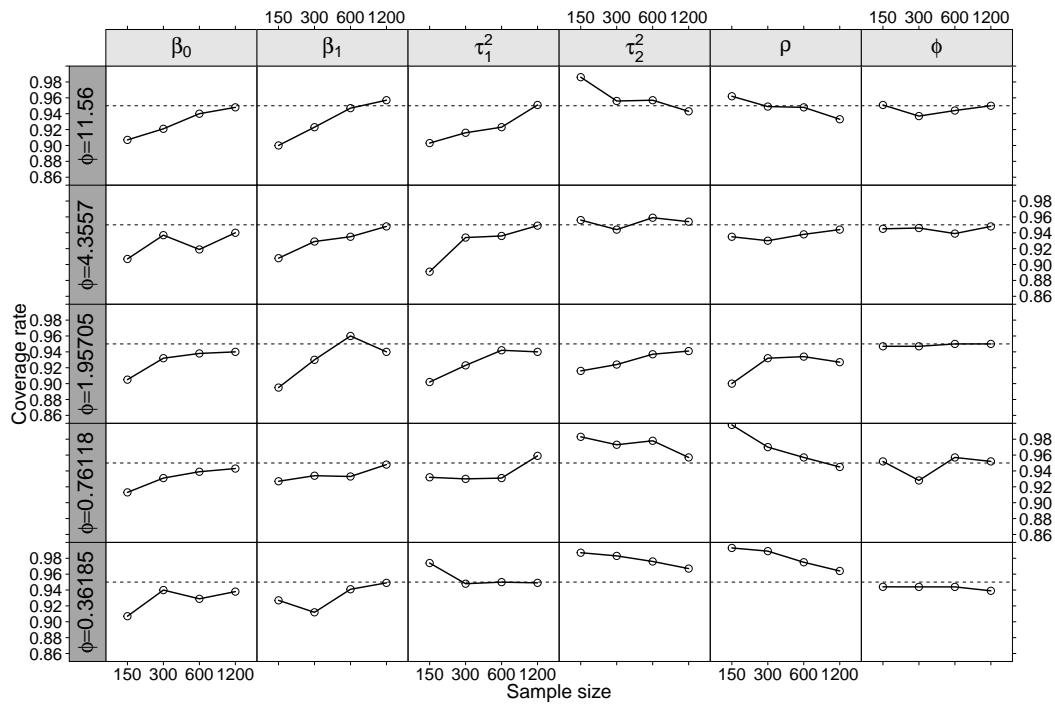

Figure 10: Coverage rate for each parameter by sample size and simulation scenarios with  $\rho$  fixed at 0.3 - Simulation study 2.

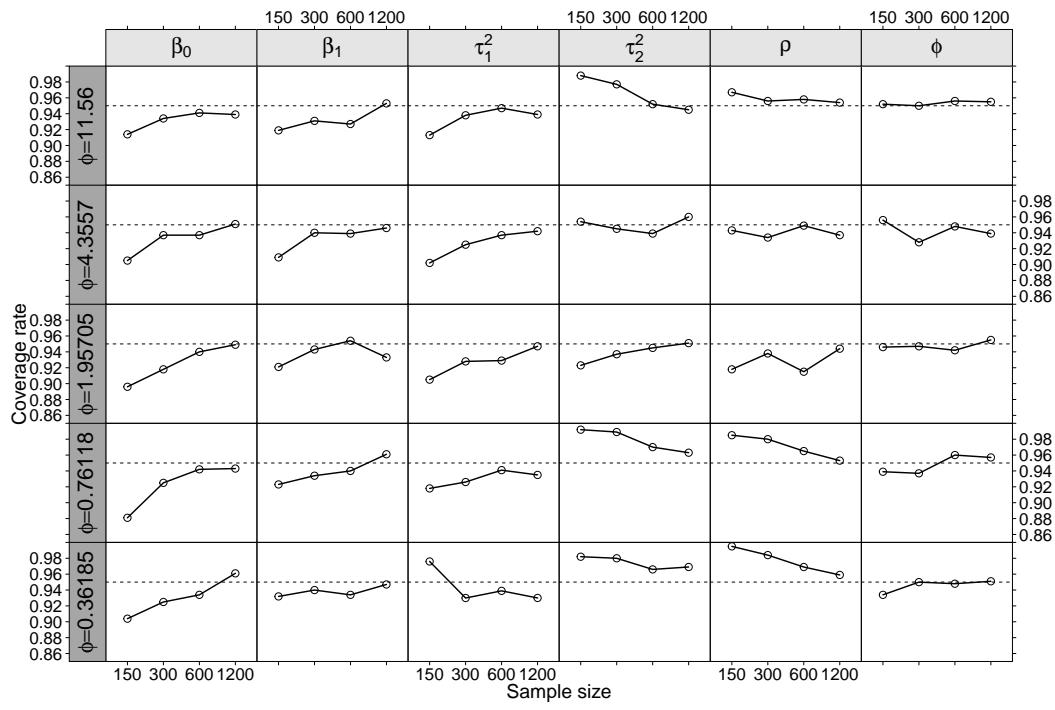

Figure 11: Coverage rate for each parameter by sample size and simulation scenarios with  $\rho$  fixed at 0.5 - Simulation study 2.

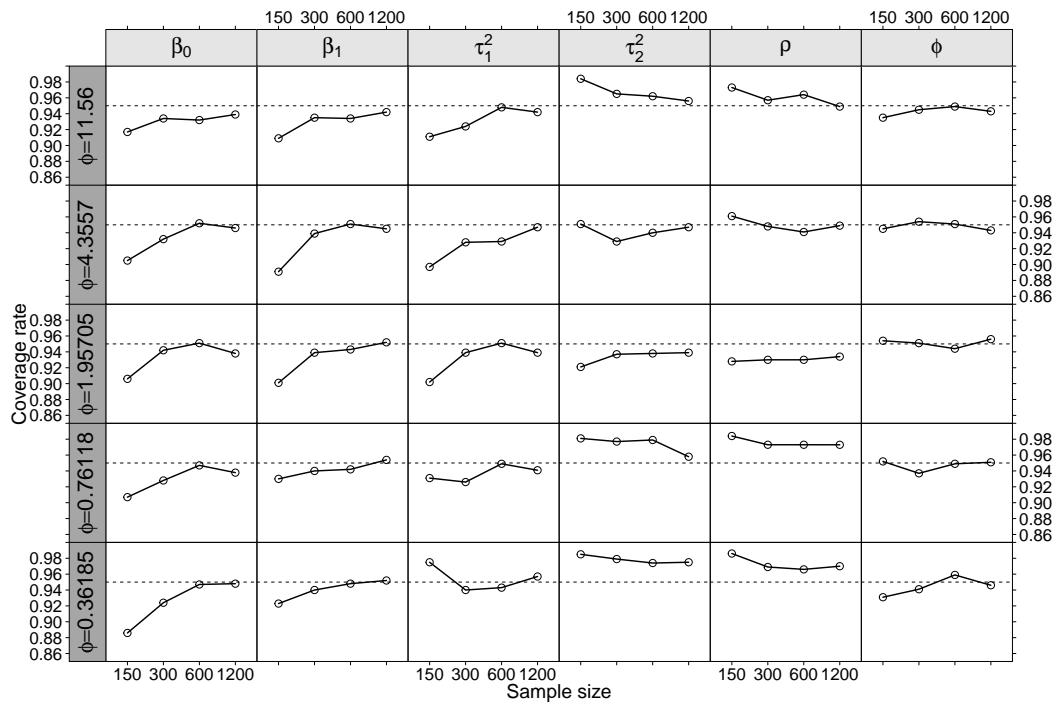

Figure 12: Coverage rate for each parameter by sample size and simulation scenarios with  $\rho$  fixed at 0.7 - Simulation study 2.

## Unit gamma mixed model with varying precision

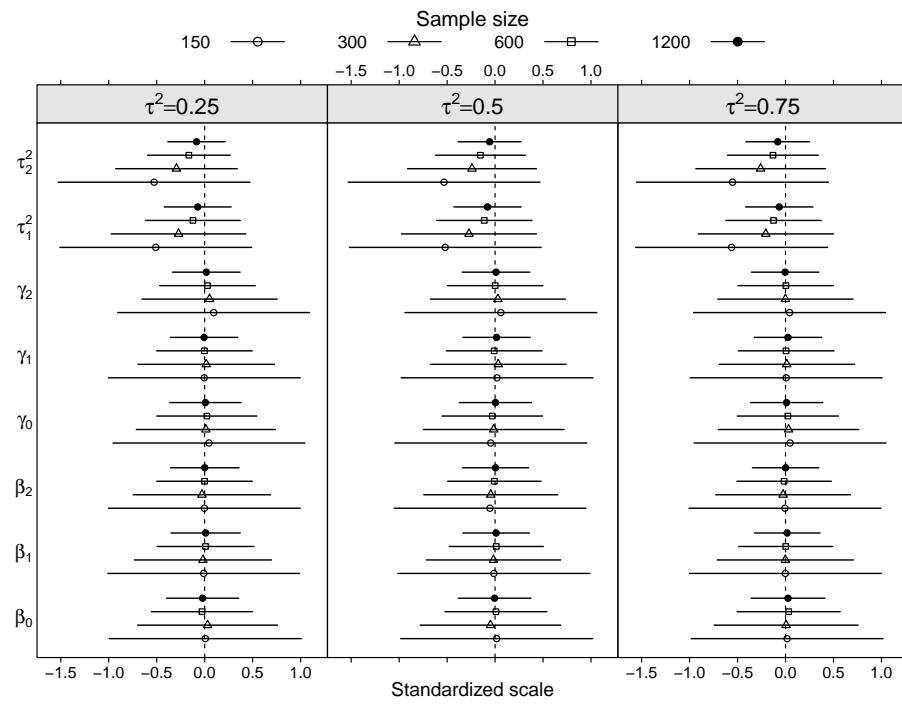

Figure 13: Average bias and confidence intervals by sample size and simulation scenarios - Simulation study 3.

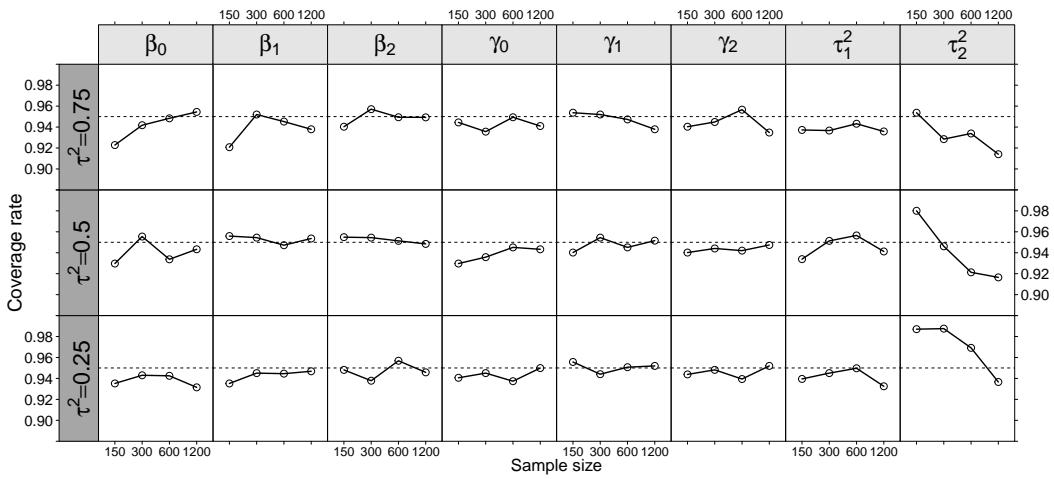

Figure 14: Coverage rate for each parameter by sample size and simulation scenarios - Simulation study 3.
